

Beem Credit Union Goes Live with VeriPark-Powered Next-Gen Digital Banking Experience

July 25, 2025 - *Beem Credit Union, in partnership with global digital banking solutions provider VeriPark, has officially launched its fully redesigned Internet and Mobile Banking platforms, delivering a modern, intuitive, and user-centric digital experience for its members.*

The new solution marks a significant milestone in Beem's digital transformation journey, offering members a seamless and engaging way to manage their finances — anytime, anywhere, across all devices.

"This is about creating the kind of experience our members deserve—simple, secure, and designed to evolve with how our members' financial needs grow and change," said Brian Harris, President and CEO of Beem. "It was an ambitious mission for Beem; but a critical step for community banking and the forward-thinking services our members will demand."

This marks a new era for credit unions. Beem takes full control of its digital platforms and can now respond more rapidly to member needs through ongoing development, platform stability, and security enhancements. "To our employees, members and partners—thank you," added Harris. What we've just done is transformational and is only possible because of what we built together. This is just the beginning."

The digital banking platform is powered by **VeriChannel**, VeriPark's award-winning digital banking solution, and is fully integrated with **Fiserv DNA** and **Central1 payments infrastructure**.

Key Features Include:

- **Unified, responsive design** across desktop and mobile
- **Seamless Fiserv DNA integration** for real-time core banking access
- **Central1 payments support**, ensuring fast and secure transactions
- **Agile development methodology**, enabling rapid deployment and future flexibility

"We're proud to celebrate the successful go-live of Beem Credit Union's new digital banking experience," said Ozkan Eren, CEO, VeriPark. "At VeriPark, we believe the credit union of the future is not only digital but truly member-centric. This launch demonstrates our shared commitment to delivering intuitive, secure, and empowering financial experiences that simplify banking for both retail and business members."

The project was delivered with a strong collaborative spirit between Beem and VeriPark teams, combining innovation, technical agility, and a member-first mindset.

About VeriPark (<https://www.veripark.com>)

VeriPark is a global solutions provider enabling financial institutions to become digital leaders by placing Customer Experience at the core of digital transformation. With an exclusive focus on FSI, VeriPark's Intelligent Customer Experience suite delivers world class customer journeys in digital and assisted channels.

VeriPark collaborates closely with clients, crafting innovative technology strategies and solutions that impact millions of people daily, bringing the promise of digital transformation to life.

About Beem

Beem is a new credit union with a history that extends back more than eight decades, when its founding credit unions were formed. Rising to the rapidly evolving challenges of the financial services industry and inspired by cooperative values, our founding credit unions recognized that we can do more together. United as Beem, we are combining our strengths to better serve our members. Beem is one of BC's largest provincially regulated credit unions, supporting the financial wellness of 193,000 members from 66 branches across the province with \$17 billion in assets under administration.
